

Acknowledgements:

The Todd County Parks, Open Space and Trails Plan was funded by a grant from the Blandin Foundation through the Community Investment Partnership program. The Todd County Development Corporation (TCDC) on behalf of the citizens of Todd County and their Board of Commissioners has administered this outdoor recreation and open space planning process.

Additional funding for public participation and open space planning components of this planning process came from The Conservation Fund on behalf of the Kodak American Greenways Award Program (Arlington, Virginia) and the Initiative Foundation (Little Falls, Minnesota).

On behalf of the citizens of Todd County, the Todd County Board of Commissioners expresses its sincere gratitude and appreciation to these foundations and to all those people who participated in this planning process.
