Todd County Spraying Exemption Form

I _____, being owner or occupant of the following described land do hereby state: I do not wish to have noxious weed or brush spraying done adjacent to my property on Todd County Road # _____, and I further agree I will control the noxious weeds and brush along this area of road right-of-way prior to July 15th of this year. If serious noxious weed problems continue to persist after landowner prescribed management prior to July 15th, the County may ask for further action to be taken. I understand that I will need to sign a new exemption form each year.

I agree to place signs on the road side marking this area before June 1st of each year. My failure to place signs to signify a no spray area may render this exemption form void.

I understand if the noxious weeds/brush are not cut or sprayed by July 15th, the county may spray these areas even if the signs are in place.
