

Newspaper article for the week of January 26-30th.

Calling all Todd County Residents! Last chance to participate in the Todd County Water Plan Survey!

February 4th will be the last day to provide input into the 2016 Todd County Water Plan process through a public survey. To complete the survey, go to the Todd County website www.co.todd.mn.us and select Local Water Management Plan Survey under the County News banner. Paper copies of the survey can also be found at your local Great River Regional Library, city hall, FSA/USDA building or the Todd County Soil and Water office in the Historic Todd County Courthouse. Completing the survey is your chance to voice concerns or offer suggestions on our water resources. The survey asks questions about how you utilize our lakes, rivers and wetlands as well as your perception on the quality of our water, soils and habitat within the area. Whether you live in town or on an active farm your input is important because a few minutes of your time will help us determine the next five years of projects.

Results of the survey will be posted on the Todd County website in March. If you have questions or would like to voice your concerns verbally call Shannon Haasser at 320-732-2644.

Last but not least, thanks to all the groups and individual residents who have already participated!
