Activity Name	Indicator Name	Value & Units	Waterbody	Calculation Tool	Comments
---------------	----------------	---------------	-----------	------------------	----------

## Final Indicators Summary

Indicator Name	Total Value	Unit
----------------	-------------	------

## Grant Activity

Grant Activity - Inventory			
Description	A buffer inventory was completed of all MN DNR protected waters and public ditches in Todd County. The inventory work involved ArcView mapping layer development using 2013 air photos as a baseline. Fields were drawn as they appeared bases on the air photos. A water layer was drawn in so that the field edges and the water were in the same layer. Buffer requirements were determined to be 26% of parcels need a buffer on public waters and 8% on public ditches.		
Category	AGRICULTURAL PRACTICES		
Start Date	13-Nov-15	End Date	30-Jun-16
Has Rates and Hours?	Yes		
Actual Results	All parcels likely needing a buffer under the new buffer requirement were identified and send letters informing them of the new rule. The database and mapping layers created from the inventory work is a starting point to reach higher levels of compliance and was used to structure the outreach that followed and is ongoing.		

Grant Activity - Outreach			
Description	All landowners having MN DNR protected waters were informed of the buffer law using a mailing.		
	1765 direct mailings were completed covering landowners having land with public waters or public ditches.		
Category	AGRICULTURAL PRACTICES		
Start Date	13-Nov-15	End Date	30-Jun-15
Has Rates and Hours?	Yes		
Actual Results	1765 direct mailings were made. 320 brochures were printed and distributed. 4 press releases were made. 4 newsletter articles were published. 4 presentations were made to public groups.
