NRCS Report for 8 June 2017 Todd SWCD Board Meeting

By Russell Kleinschmidt

We have signed all the remaining EQIP contracts for this year for a total of 19 contract on 1744.8 acres totaling $724,857.00. This was out of a total of 44 applications. There is a chance additional money may come available, but is limited.

We are working through the CSP CAET Interviews to score and rank the applications. Contracts won’t be obligated until June.

Still no word on hiring another administrative contract employee, but it has been delayed.

Conservation Client Gate (CCG) is still being promoted and we are looking for more folks interested in signing up. Our office can assist producers.

Limited site inspections and preconstruction meetings have occurred since the last Board meeting.

With continued limited staff we are working diligently to maintain and keep up with daily workload along with programs and deadlines. We have continued to manage to complete tasks to meet required deadlines.
