Todd County Transfer Station – Seasonal Household Hazardous Waste

The Solid Waste Department is postponing opening of the seasonal Household Hazardous Waste drop-off services at the Transfer Station from May 1 until June 1 due to COVID -19 social distancing guidelines.

We ask that you practice social distancing when dropping off recyclables and waste material, and when entering the Transfer Station Office area. Todd County Transfer Station staff will not be assisting in unloading any materials brought to the transfer station.

Todd County appreciates the public's patience and cooperation during this time.
