PRESS RELEASE: FOR IMMEDIATE RELEASE
DATE: May 28, 2020
Todd County Offices – Phase 1 Reopening

Starting May 26th, Todd County will begin Phase 1 of reopening. While County buildings remain closed, certain services are available by appointment only when the service requires an in person appointment. Please visit the Todd County website for specific department instructions on making appointments. This can be found at <https://www.co.todd.mn.us/accessingservices>

Examples of services available by appointment during the phase 1 reopening include:

- Services for which online and over the phone solutions do not exist
- Certain complex transactions
- No online access

When in-person appointments are necessary, customers and County employees need to continue practicing physical distancing during these interactions. Masks are encouraged in the open counter areas. Masks are required when meeting face-to-face in small interview/meeting rooms.

Many County services remain accessible either online, over the phone, and through email, which continue as the preferred method of service. The Todd County website describes how residents and business partners can access our services during this Phase I reopening. This can be found at <https://www.co.todd.mn.us/accessingservices>

County essential services such as law enforcement, 911 Dispatch and jail services remain fully operational.

Todd County appreciates the public's patience and cooperation during this time.
